

## STERIFOG® THREE STEP PROCESS

HIGH LEVEL DISINFECTING FOGGER & SPRAY

**STERIFOG®** is harmless to humans (SABS food grade approved) but deadly to Microbes ie: Bacteria, Viruses, Fungi, Algae and Spores.

Anti-microbial misting involves the use of **STERIFOG®** in an aerosol micron diffuser to create a dry mist that permeates an entire small room facility up to 50 cubic meters. It's a form of High Level Disinfectant shock treatment that bonds to virtually everything - killing 99.9% of all microbes that cause illness and odours.

**NB:** Eliminates organic and inorganic odours quickly and effectively. **Sterifog®** is a three step disinfecting process.

### STEP 1 (Monthly Shock Treatment)

Use **Sterifog®** Disinfectant Fogger to treat EXPOSED areas e.g. - patient's room, baby rooms, office buildings, smoking rooms, small kitchens, office toilets, walk in fridges, etc.

### STEP 2

Use **Sterifog®** Disinfectant Spray to treat UNEXPOSED (Hidden) areas e.g. - under sinks, waste bins, door handles, under desks, shower floor, over cat litter boxes, motor vehicle air-conditioning vents, office air-conditioning units and filters, motor car interiors, your fridge, dishwasher and dustbins at home etc. Can also be used as an odour neutraliser and disinfectant spray in the toilet.

### STEP 3

Use **Sterifog®** Disinfectant Room Spray to treat SMALL ROOM ENVIRONMENTS CONTINUOUSLY throughout the month to ensure daily disinfecting and odour neutralising of heavy traffic areas and confined areas susceptible to the spread of disease e.g. - patient's room, doctor's room, dentistry, nursery school, office buildings, public toilets, reception areas, inside high-rise office lifts etc. Kills Bacteria, Viruses, Fungi, Mildew, Mould, Organic and Inorganic odours.

#### **Sterifog® is available in:**

- 100ml, 250ml - Metered Dose Cans
- 350ml - Cans

#### **Fragrances:**

- Plain
- Vanilla
